## COVER STORY

### Vande Mataram: National Integration Camp – Uniting Through Flavours

DEFINING
TASTE OF INDIA

As part of the Vande Mataram: National Integration Camp hosted by Brainware University, students from six States and Union Territories participated in &quot;Uniting Through Flavours,&quot; a vibrant cooking competition celebrating India&#39;s rich culinary heritage. Showcasing regional cuisines and traditions, participants shared the stories behind their dishes while experiencing the country&#39;s cultural diversity firsthand. The event fostered camaraderie, cultural exchange, and the spirit of unity in diversity, reinforcing the idea that India&#39;s strength lies in its shared heritage and collective identity.

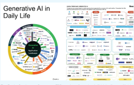
### Voluntary Blood Donation Camp for Staff Members

VOLUNTARY
BLOOD DONATION
CAMP

Brainware University, through the Department of Allied Health Sciences and the NSS Unit, in collaboration with the Indian Red Cross Society and Barasat Blood Bank, organized a Voluntary Blood Donation Camp for faculty and staff members. The initiative promoted voluntary blood donation, raised awareness about its life-saving importance, and reinforced the spirit of social responsibility and community service among the university fraternity.

## HIGHLIGHTS OF THE MONTH

### Faculty Development Programme on Generative Artificial Intelligence



Generative AI in Daily Life
Generative AI Application Landscape

The Faculty Development Programme (FDP) on &quot;Generative Artificial Intelligence: Models, Applications, and Intelligent Innovations&quot; was conducted in online mode from 16–23 June 2026. The programme equipped faculty members with a comprehensive understanding of Generative AI, covering modern AI models, their applications in education, research, and industry, and emerging intelligent innovations. Through expert-led sessions, live demonstrations, and interactive discussions, participants explored AI- driven teaching and research practices, automation, ethical considerations, and future trends. The FDP fostered interdisciplinary collaboration, knowledge sharing, and the adoption of innovative AI solutions for addressing real-world challenges and promoting sustainable development.

### Unfiltered Minds: Navigating Through Thoughts, Emotions &; Self

MAYBE
SOMETIMES

Mononiketan, Brainware University, in collaboration with the Indian Red Cross Society, organized &quot;Unfiltered Minds: Navigating Through Thoughts, Emotions &amp; Self&quot;, a self-development session for nursing students. The programme encouraged participants to explore self-awareness, emotional resilience, and mental well-being through interactive discussions and reflective activities. By emphasizing the importance of understanding one&#39;s own thoughts and emotions, the session prepared future healthcare professionals to provide compassionate care while maintaining their own emotional well-being.

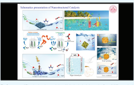
## CAMPUS NEWS

### Educational Tour June 2026

KALIMPONG KRISHI VIGYAN KENDRA
UTTAR BANGA KRISHI VISWAVIDYALAYA
SEED FARM, P.O. KALIMPONG
DIST. KALIMPONG WEST BENGAL-734301
EDUCATIONAL TOUR
GPS Map Camera

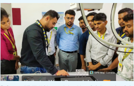
The Department of Agriculture, Brainware University, organized an Educational Tour from 2nd June 2026 to 7th June 2026 at Krishi Vigyan Kendra (KVK), Kalimpong, West Bengal, for students of the B.Sc. (Hons.) Agriculture programme. The six-day educational visit was designed to provide experiential learning and exposure to agricultural research, extension activities, and sustainable farming practices in a distinct agro-climatic region. The event was aligned with the United Nations Sustainable Development Goals (SDGs), particularly SDG 4 (Quality Education) through hands-on learning, SDG 5 (Gender Equality) by ensuring inclusive participation, SDG 6 (Clean Water and Sanitation) through awareness of efficient resource management practices, and SDG 7 (Affordable and Clean Energy) by exposing students to sustainable agricultural technologies and resource-efficient farming systems.

### International Webinar on World Environment Day 2026



The Department of Biotechnology, in association with the Institution's Innovation Council (IIC), organized an International Webinar on "World Environment Day 2026: Green Technologies for Climate Mitigation" on 5 June 2026 in virtual mode. Coordinated by Dr. Shouvik Saha, Dr. Sambit Datta, Dr. Anusuya Debnath, and Dr. Indrani Paul, the webinar featured Prof. Supriya A. Patil from Sejong University, Republic of Korea, who delivered a keynote lecture on green hydrogen production through electrochemical water splitting using earth-abundant catalysts. Attended by 45 participants, the session highlighted innovative green technologies, renewable energy solutions, and sustainable climate mitigation strategies, while promoting research collaboration and awareness aligned with the Sustainable Development Goals (SDGs).

### Workshop on Quality Assurance &; Quality Control in Fixed X-ray Imaging Systems



The Department of Allied Health Sciences organized a workshop on Quality Assurance &amp; Quality Control in Fixed X-ray Imaging Systems on 10 June 2026. Conducted by Mr. Sourav Sarkar, Application Specialist at Radiological Precision Lab (India) Pvt. Ltd., the session provided practical insights into quality assurance protocols, imaging standards, patient safety, and regulatory compliance. The workshop enhanced participants&#39; technical knowledge and professional competencies in radiological practice.

### Community Connect: Mental Well-being Outreach Initiatives

Kolkata, West Bengal, India
Chhota Jagulia, West Beng

Mononiketan, in collaboration with the Indian Red Cross Society and Brainware University, organized a series of community outreach programmes from 23–30 June 2026 to promote mental well-being and emotional resilience among vocational trainees, students, and parents of children with autism. Through interactive workshops, one-to-one counselling, and awareness sessions, participants explored stress management, emotional intelligence, self-care, and healthy coping strategies. The initiatives encouraged open conversations around mental health while strengthening community awareness and access to psychological support.

### Mental Health Matters: Understanding Yourself Better

As part of Mononiketan&#39;s mental health awareness initiatives, the session &quot;Mental Health Matters: Understanding Yourself Better (মানসিক স্বাস্থ্য গুরুত্বপূর্ণ: নিজেকে আরও ভালোভাবে জানি)&quot; was organized on 24 June 2026 for over 200 nursing students at the Nursing Building, Brainware University. Conducted by Shrabana Panda, Rishika Paul, and Anandita Das, the interactive session focused on self- awareness, emotional well-being, stress management, and the importance of seeking support when needed. The programme encouraged students to prioritize their mental health and build resilience for both their academic journey and future professional responsibilities.

## BRAINWARE ADVANTAGE

### Oral Health Matters: Free Oral Screening and Awareness Camp

WORLD NO TOBACCO DAY
GPS Map Camera
Kolkata, West Bengal, India
Pfjx+vqj, Uttar Seethi, Kolkata, West Bengal

On the occasion of World No Tobacco Day, the Department of Allied Health Sciences, Brainware University, in collaboration with Brainware Diagnostic Clinic &amp; Research Centre, IQAC, and Kusum Devi Sunder Lal Dugar Jain Dental College &amp; Hospital, organized &quot;Oral Health Matters: Free Oral Screening and Awareness Camp&quot; on 4 June 2026 as a Faculty Welfare Initiative. The programme promoted oral health awareness and early detection of dental conditions through free oral screenings, encouraging preventive healthcare and healthy lifestyle practices among faculty members.

### Diabetes Awareness &; Health Screening Camp

FREE DIABETES
SCREENING CAMP
7338809993

The Department of Allied Health Sciences, in collaboration with Brainware Diagnostics Clinic &amp; Research Centre and Dr. Mohan's Diabetes Specialities Centre, organized a Diabetes Awareness &amp; Health Screening Camp on 18 June 2026 for Brainware University faculty members. The camp offered free HbA1C and Random Blood Sugar (RBS) testing, promoting diabetes awareness, early detection, and preventive healthcare through expert screening and guidance.

## COMMUNITY CONNECT

### Outreach Activity at Shivanandalaya Old Age Home, Badu

The Institute of Nursing, Brainware University organized a community outreach programme at Shivanandalaya Old Age Home, Badu, on 6 June 2026. As part of the initiative, nursing students provided primary geriatric care by monitoring vital signs, conducting basic health assessments, and nteracting with residents to promote their emotional well-being. The programme offered students valuable hands-on experience in community nursing while fostering empathy, compassion, and professional responsibility. Aligned with Sustainable Development Goals (SDGs) 3 (Good Health and Well-being) and 4 (Quality Education), the outreach strengthened practical learning and reinforced the importance of quality healthcare services for the elderly.

### Outreach Activity at Shivanandalaya Old Age Home, Badu

The Institute of Nursing, Brainware University, in collaboration with the Indian Red Cross Society and Mononiketan, organized a community outreach programme at Shivanandalaya Old Age Home, Badu, on 13 June 2026. The team conducted baseline health check-ups, primary geriatric health screening, and emotional wellness interactions with the elderly residents, promoting both physical and psychological well-being. The initiative provided nursing students with valuable hands-on experience in community healthcare while fostering empathy, teamwork, and professional ethics. The programme strengthened students&#39; understanding of geriatric care and highlighted the importance of compassionate service through meaningful community engagement.

### Noncommunicable Disease Awareness Programme

The Institute of Nursing, Brainware University, in collaboration with the Indian Red Cross Society, organized a Noncommunicable Disease Awareness Programme for Skills Development faculty on 23 June 2026. The session focused on the prevention and early detection of lifestyle-related diseases such as hypertension, diabetes, and cardiovascular disorders, while promoting healthy lifestyle practices and preventive healthcare among educators.

### Free Eye Screening &; Mental Health Awareness Camps

Chhota Jagulia, West Bengal, India
Barasat, West Bengal, India
Mode, West Bengal, India
Kalyani, West Bengal, India

The Department of Allied Health Sciences and Mononiketan, Brainware University, in collaboration with the Indian Red Cross Society, organized a series of Free Eye Screening and Mental Health Awareness Camps across North 24 Parganas from 6–30 June 2026. The outreach programmes promoted early detection of vision-related problems while raising awareness about mental well-being, stress management, and emotional resilience among school students and community members. The initiative also provided Allied Health Sciences students with valuable hands-on clinical experience, strengthening their practical skills and commitment to community healthcare.

### Free Health Check-up Camps in Collaboration with the Indian Red Cross Society

Health Screening Camp
Chhota Jagulia, West Bengal, India
Nebadhai Duttapukur, West Bengal, India

The Department of Allied Health Sciences, in collaboration with the Indian Red Cross Society and partner organizations, conducted a series of Free Health Check-up Camps across schools and community locations throughout June 2026. The camps offered services including blood pressure and blood sugar testing, ECG, eye screening, haemoglobin estimation, blood grouping, pulse oximetry, and medical consultation, benefiting students, teachers, elderly residents, and local communities. The initiative promoted preventive healthcare and early disease detection while providing Allied Health Sciences students with valuable hands-on clinical experience under professional supervision.

## STUDENTS' CORNER

### CPR &; Basic Life Support Awareness Initiative

Kolkata, West Bengal, India

The Institute of Nursing, Brainware University, in collaboration with the Indian Red Cross Society, conducted a series of CPR and Basic Life Support (BLS) awareness programmes from 3–25 June 2026 for university staff, Skills Development students, and school students. Through expert-led demonstrations and hands-on training, participants learned essential life-saving skills, emergency response protocols, and CPR techniques, promoting greater emergency preparedness, confidence, and community awareness.

### First Aid Awareness Initiative

BRAINWARE UNIVERSITY CAMPUS

The Institute of Nursing, Brainware University, in collaboration with the Indian Red Cross Society, conducted a series of First Aid Awareness programmes from 16–19 June 2026 for Skills Development students. Through expert-led demonstrations and interactive sessions, participants learned essential first aid techniques, including wound care, bandaging, fracture management, emergency response, and basic trauma care. The initiative enhanced students&; confidence, safety awareness, and preparedness to respond effectively to everyday medical emergencies.

### Understanding Your Mental Well-being

The Institute of Nursing, Brainware University, in collaboration with the Indian Red Cross Society and Mononiketan, organized a mental health awareness programme titled &quot;Understanding Your Mental Well-being&quot; on 24 June 2026 at Ballygunge Utkarsh Bangla Skills Centre. The session focused on mental well-being, stress management, emotional resilience, and reducing mental health stigma, while encouraging students to seek support and prioritize their psychological well-being.
