I am delighted to present before you Volume No. 7 and Issue No. 1 of “Brainwave: A Multidisciplinary Journal” published by Brainware University, West Bengal, India. This issue reflects our ongoing commitment to disseminating high quality research and novel ideas in multidisciplinary areas.

This issue features diverse range of research articles. The articles showcase innovative ideas and push the boundaries of knowledge. It deserves mentioning in this context submitted articles are double blinded peer reviewed by eminent reviewers.

I would like to extend my heartfelt thanks to our editorial team, reviewers and contributors of research articles for their tireless efforts in this context. In fact, their expertise and dedication are instrumental in making our journal a premier platform for knowledge sharing among scholars and researchers. I am also indebted to the concerned stake holders, who worked hard in

order to ensure publication of this issue possible in time.

As we proceed ahead , we will remain committed to upholding the highest standards of academic excellence and integrity. We do hope that readers will enjoy reading this issue. Further, we welcome the feedback from the readers. The constructive suggestions of our readers in the form of feedback will help us to improve the quality of the Journal.

I am of firm belief that this issue will inspire, educate and enrich readers.

---
