

BRAINWARE UNIVERSITY

RULES FOR INTERNATIONAL STUDENTS

Safety and security of students inside and outside the University campus is always a matter of great concern of the University authority. This concern acquires a greater dimension when it comes to the safety and security of international students, especially if they are girl students. Over the past decade, India has not only been an exporter of intellectuals in the form of teachers to a number of internationally top-of-the-line universities across the globe, it has also been an importer of a lot of foreign students who bring in a lot of revenue for us. Moreover, greater the influx of foreign students into India, greater is the reflection of the country's improving educational and research standards as well as positivity of our diplomacy. Therefore, we should rightly frame regulations to safeguard them from harm, deliberate or unintended, in an alien culture. International students are expected to abide by all the rules of the Brainware University as well as the laws of the country. The code of conduct that is applicable to Indian students studying in the same course is applicable to them as well. To avoid risk. Please be aware that you are in a foreign country.
