Preamble

The National Commission for Allied and Healthcare Professions (NCAHP) has initiated several measures to bring uniformity, competency, and excellence in the allied and healthcare education system of the country. The academic reforms and curriculum guidelines recommended by NCAHP in recent years have led to significant improvement in the standardization of allied health programmes.

However, due to diversity in the higher education system, multiple approaches are followed by universities in respect of examination, evaluation, and grading systems. The grading system is considered to be more effective than the conventional marks system and is being widely adopted in leading institutions in India and abroad. Therefore, it is desirable to introduce a uniform grading system for the Bachelor of Physician Associates (B.PA) Programme in alignment with NCAHP guidelines. This will facilitate student mobility across institutions within and across the country and will also enable potential employers to assess the performance of students effectively. To bring the desired uniformity in the grading system and in the method of computing the Cumulative Grade Point Average (CGPA) based on student performance, appropriate guidelines consistent with NCAHP recommendations are to be adopted.

The National Commission for Allied and Healthcare Professions (NCAHP) has recommended the implementation of a semester-based Choice Based Credit System (CBCS), wherein students are enabled not only to study core subjects but also to explore additional areas of learning beyond their core domain for holistic development. The proposed curriculum aims to empower students and support them in achieving overall academic and professional excellence. The implementation of CBCS will also facilitate benchmarking of courses in India with established academic practices.

The course shall be evaluated through a combination of marks and grading systems. Continuous and comprehensive evaluation shall be an integral part of the assessment process to ensure effective learning outcomes.
